Support for the Earthquake in Turkey and Syria

We would like to express our condolences to those who lost their lives in the recent earthquake in Turkey and Syria, and our deepest sympathies to those who have been affected by the disaster.

Nikkiso Co., Ltd. hereby announces that we have decided to donate 16 hemodialysis machines to help victims.

Due to the February 6, 2023 Turkish-Syrian earthquake that destroyed many dialysis facilities, dialysis patients in the affected areas are now forced to travel to Istanbul, Ankara, Adana, and Antalya to receive treatment, and the number of dialysis machines is insufficient. In view of these circumstances, we have decided to donate a total of 16 hemodialysis machines to support dialysis facilities close to the disaster area, where many patients are pouring in for treatment, and to help restore facilities that were destroyed by the earthquake.

Our group sincerely hopes for the earliest possible restoration and recovery of the affected areas.
