Press Information

November 26, 2021

Nikkiso's consolidated subsidiary, CE&IG Group, Becomes North American Authorized Aftermarket Partner for Tatsuno.

Nikkiso's consolidated subsidiary, Clean Energy & Industrial Gases Group ("CE&IG Group"), announced the signing of a Memorandum of Understanding (MOU) with Tatsuno North America, Inc. ("Tatsuno") to initiate cooperation as the Authorized Aftermarket Partner for their Hydrogen Dispensers in North America to establish a framework for cooperation.

Under the terms of the MOU, CE&IG Group will provide spare parts, maintenance and repair services of Tatsuno's Hydrogen Dispensers from CE&IG Group's network of North America facilities that are near the end user's hydrogen refilling stations. In addition, CE&IG Group will install and commission new dispensers, including the provision of engineering and pre-setup support for Tatsuno's charging and fleet management systems.

Hydrogen dispensing is a new and developing market and an important component of the Hydrogen fueling station solution. These dispensers provide safe and fast fueling for both light duty and heavy-duty vehicles at 350 barg and 700 barg.

CE&IG Group was chosen for this new, long-term partnership because of their relationships and hydrogen experience. They are also able to provide expanded services including complete Hydrogen fueling system solutions. This partnership will also provide new jobs for the local service facility economies.

This newly formed partnership with CE&IG Group and Tatsuno strengthens our Hydrogen presence and allow us to better serve the North American markets with top quality service and support.

Nikkiso will continue to strengthen our hydrogen-related business in order to expand our business in the US hydrogen station market.

< About CE&IG Group >

CE&IG Group manufacture engineered cryogenic gas processing equipment and small-scale process plants for the liquefied natural gas (LNG), well services and industrial gas industries. Founded over 50 years ago, Cryogenic Industries is the parent company of ACD, Cosmodyne and Cryoquip and a commonly controlled group of approximately 20 operating entities.
